

About Valley Vision

MISSION

Working to increase the civic and collaborative capacity of the six-county Capitol Region and ensure sustainable economic, social, and environmental vitality.

What we do

Valley Vision is a non-profit organization committed to building civic engagement while addressing regional issues. Valley Vision acts as a neutral convener, provides objective information on issues, and encourages a regional approach to the challenges and opportunities created by rapid growth. A cross-section of the region's leadership, committed to proactive and thoughtful solutions, is engaged with Valley Vision. Our membership includes representatives of business, agriculture, the environmental community, organized labor, education, utilities, government and the non-profit sector. By partnering with other organizations and agencies, Valley Vision has successfully engaged citizens in a variety of projects, creating innovative outcomes in the areas of transportation and land use, business education partnerships, regional indicators, open-space and agriculture preservation, and services for low-income residents.
